

Graduates Reflections

Beh Yng Yng

Email : byyng@misi.edu.my
From : Malaysia
Education : BSc (U Malaya)
Experience : Power Integrity Engineer (Designer), Intel

"The holistic approach of coursework and industrial experience offered by this program groomed me to be an excellent supply chain professional. The lecturers are passionate in teaching well-designed program of scientific and qualitative strategic thinking modules."

Harsukhvir Singh Godrei

Email : hgodrei@misi.edu.my
From : Malaysia
Education : BE (UTN)
Experience : Mech Engineer, Aker Solutions

"I'd like to express my heartiest gratitude to my classmates, faculty, administration staff, thesis sponsor and every soul along the way that shared this memorable journey with me."

Leaving a full time job going back to school was a tough choice for me. This decision ended up being one of the best decision I've made. In just 10 months I've gain abundance of in depth knowledge of the supply chain field from the angle of several industries. The combination of top class faculty together with the MIT curriculum, was the perfect ingredients in grooming a supply chain professional. This program have exceeded my expectations and I'm proud to be a MISI-ian!"

M. Shahid Bashir

Email : msbashir@misi.edu.my
From : Pakistan
Education : MBA (LUMS) & BSc (GIKI)
Experience : CEO, AB Ampere

"The Supply Chain Masters program at MISI has empowered me with the modern day analytical analysis tools that are powerful for taking critical decisions. Having worked in my manufacturing based start-up for ten years, I am optimistic to leverage this newly learned knowledge for bringing excellence in my work. The field of Supply Chain has evolved in the past few years and needs professional to fill in the gaps. MISI provides interested candidates with the right platform to springboard their career to new heights. Indeed, it is tough coping with the work pressures but once you put in the effort, the results are quickly noticeable. I have observed a great deal of collaboration and respect for MISI by its strategic industrial partners, most of whom are blue chip companies. I leave MISI with best wishes and hopes for prosperity."

Manish Thapa

Email : mthapa@misi.edu.my
 From : India
 Education : BE (Northumbria)
 Experience : Senior Marine Engineer, Artic Offshore

"After working for almost nine years in the shipping industry, I had almost reached saturation level in my work life and wanted to learn something new and interesting. The decision to learn about supply chain management at MISI was an easy decision for me because of the institute's MIT credential and association. It was initially tough readjusting to studying after being away from it for such a long time, but it got easier over time with the help of my peers, the faculty and the administration. Working on real industry problem as part of my thesis gave me good practical experience on how to put my learning into action and also exposed me to new analytical tools. The multicultural, challenging and intense 10- month experience has certainly changed me and helped me to get prepared to tackle day to day challenges faced by the supply chain world. Overall, my time at MISI was pleasant and memorable."

Melissa Cherisse Medford

Email : mcmedford@misi.edu.my
 From : Trinidad and Tobago
 Education : BSc (West Indies)
 Experience : Country Manager, Divsa Group

"For what purpose is to be had in mere existence, if we are to progress in life striving for excellence"

It is an honour to approach the culmination of this milestone experience, and forthcoming alumnus rank at the Malaysia Institute for Supply Chain Innovation and MIT Global SCALE Network. Considering that getting here for me meant a literal trip around the world, twelve hours forward in time, I could not be more appreciative of the committed faculty and ancillary staff who, nobly availing a supportive, familial nucleus, took vested interest in our personal advancement. An expertly engineered, superbly coordinated curriculum delivered by passionate educators provided a brilliant standard of education well worth the sacrifice, spurring us on to be champions of innovation, distinguished from the mundane."

Neha Arun Bhardwaj

Email : nabhardwaj@misi.edu.my
 From : India
 Education : BSc and Masters (New Delhi U)
 Experience : Merchandiser, Buying House

"I truly believe that deciding to take on this Masters course is one of the best decisions that I have made in my life so far. It exposed me to a wide array of new experiences and knowledge that would have been otherwise nearly impossible to achieve in such a short amount of time. It is amazing to see how much I have evolved as a person from the time I embarked on this journey, in terms of the way I perceive things around me today. This course equips you with just the right skills and opens your mind to a new world giving you the freedom to explore and stretch your limits. Among all the things I learned here, the one lesson I will always cherish is - "There is no right or a wrong answer, it all depends..."

Olajide Olugbenga Oyeyipo

Email : oooyeyipo@misi.edu.my
From : Nigeria
Education : BSc (U of Lagos)
Experience : Project Delivery Manager, Nokia

"I made real friends at MISI. real friends! I'm looking forward to the time i get asked to recommend someone for a leadership role in an organization. My mind will go first to MISI class of 2017! Whether it's been the fun times or the sleepless nights to meet crazy deadlines, we have supported each other and we always came out on top.

The learning does not stop here for me. There is so much I have learnt in this program and so much I want to go over again and again till its internalized. That's how much i value the quality of education received at MISI."

Phani Vennela Nimmagadda

Email : pvnimmagadda@misi.edu.my
From : India
Education : Btech (NIT)
Experience : Manager, Tata Motors

"Past 10 months, I should say have been the most impactful and rewarding years of my life. What made this journey really splendid for me were the people and the curriculum. Professors at MISI never failed to keep our learning curves steep and kept pushing us to rediscover our capabilities and helped us to turn into true supply chain professionals. The curriculum was designed on par with MIT standards that gave us a perfect blend of theoretical and practical exposure to the world of supply chain.

IAP at MIT Boston was another memorable experience that helped us to interact with industry leaders and amazing people from different nationalities, broadening our horizon in the supply chain domain. I thank MISI for giving me an opportunity to be a part of this wonderful program, leaving me with a bunch of friends for the lifetime and memorable moments to cherish."

Sowjanya Bhamidipati

Email : sibhamidipati@misi.edu.my
From : India
Education : Btech (NIT)
Experience : Manager, Tata Motors

"The course curriculum definitely matched my expectations by equipping us with scientific approaches to solve real life supply chain problems. Visiting professors from MIT, other scale institutes and residential faculty at MISI helped me build strong technical skills. After meeting peers from other scale centres at IAP, I am happy to say that the faculty and the on campus facilities offered by MISI are among the best. With further efforts from students and the management, I strongly believe that MISI will be one of the best centres globally for education in supply chain management."
