Pavan Kumar Amarvadi Venkata

Email : pkamarvadi@misi.edu.my
From : Bangalore, India
Education : Bachelor of Engineering in Maritime Technology, Birla Institute of Technology
Experience : Nautical Officer - Maersk Line, Change Manager Maersk Line, Port Captain Trainee Mediterranean Shipping Company

"It has only been ten months, but it feels like a lifetime. The impact these months have had on my mindset is unbelievable. I find myself today, so much stronger in thought and so much more capable in execution of management tasks. I'm leaving here with a fresh appreciation for high functioning teams and the quantitative tools that manage Supply Chains. I'm grateful for the faculty for challenging me every day and I'm grateful for the admin for all the care that they have shown.

I want MISI to be recognized as a beacon of high quality education and a creator of leaders here in South East Asia. And sailing forward, I will remember fondly my time here as have spent with the coolest cohort I could have asked for. Cheers!"

Edip Celebioglu

Email : ecelebioglu@misi.edu.my
From : Mardin, Turkey
Education : Bachelor of Science, Industrial Engineering, University of Gaziantep
Experience : Logistics and Operations Manager – Semillas Fito, Assistant Logistics and Operations Manager – Semillas Fito, Industrial Engineer – AGT Furniture Components, Quality Assurance Engineer – Sky Airlines

"The time at MISI helped me form new connections, and I made some great friends. The course exposed me to a multi-cultural environment. The endorsement would be incomplete without a befitting thanks to the wonderful country of Malaysia, which played a wonderful host to us. The people were very helpful, courteous and always had a smile to share. I wish my cohort the very best for the future."

Suharto Chatterjee

Email : schatterjee@misi.edu.my
From : Kolkata, India
Education : Bachelor's of Technology, Metallurgical and Materials Engineering- National Institute of Technology; Six Sigma Green Belt Certified
Experience : Commissioning Manager – Vizag Steel Plant; Operations Manager – Vizag Steel Plant

"Learning at MISI is like drinking from a fire hose. The course work is pragmatic, intense and surely going to give one some sleepless nights. The professors are world-class and have pushed me beyond my limits. Moreover, I was afraid of coding and now here I am adept in 2 coding languages. My class mates, representing almost all continents have made me more open to change, and taught me how to direct diverse perspectives to a common goal. The MISI and MIT pedagogy has made me so passionate about Supply Chain that I can't wait to graduate and unveil my potential to the world."

"The MIT – Malaysia Supply Chain Management program indeed provides all the knowledge and skills highly demanded in modern Supply Chain fields. During the last ten months, I learn the intricacies of the supply chain operations, the basics from the past, the innovative developments from the present and dream with the fantastic future for the supply chain. These will not be possible without high experienced and seasoned Faculties that kept me pushing to be the best and perform at the highest level, always focused in help me to develop my critical thinking and innovative approaches to the supply chain. I do not doubt that the combination of MIT curriculum, the exposure to the South East Asia region dynamics and the continuous engagement with world renown Industry partners; provide the most rewarding experience to those interested in advance their skills and knowledge in the supply chain field. I would like to express my gratitude to my friends and classmates, faculty, administration staff and thesis sponsor that shared this journey with me, I wish you all the best, and hopefully, our path will cross again many times more in the future."

Adeel Habibullah Kalwar

Email : ahkalwar@misi.edu.my
From : Pakistan
Education : Bachelors in Business Administration from Institute of Business Administration, Karachi
Experience : Director at a small-scale manufacturing company

"MISI provides you with a blend of academic and practical knowledge. It challenges you by overloading you with coursework and assignments but also supports you when you need help. The curriculum and the faculty are second to none. You have a great opportunity to learn from some of the best minds in the world, especially the visiting faculty. Similarly, MISI's industry partnerships create a great platform for the students to gain practical knowledge by working with some of the biggest multinationals in the world. MISI also has a very diverse student body, our class had students from 11 different countries around the world. Overall MISI provides a fulfilling experience to anyone who is up for a challenge."

Antonio Henrique Dianin

Email : adianin@misi.edu.my
From : Brazil
Education : Massachusetts Institute of Technology / MIT – Micro Master Supply Chain Management. Getulio Vargas Foundation / FGV - MS of Business Administration – MBA University of Minnesota – Specialist Healthcare Marketplace. Universidade Estadual de Campinas / UNICAMP - Med School - MS Surgery Sciences
Experience : 15 years as CEO from DMSCompany Group.
5 years as CEO from Project Company Group.
5 years as Coach and Public Speaker.
8 years as a Professor

"This period of my life has been a great roller coaster journey and the drive has been quite enriching. The best part of the MIT-Malaysia Master of Supply Chain Management course, besides the depth education, is the exposure to a multicultural environment where I gain new friendships consisting of various nations. For sure, a network of future leaders with which I have made a lifelong connection. I appreciated this remarkable profound experience."

Graduates Reflections

Atziri Margarita Hernandez Carrillo

Email : amhernandez@misi.edu.my
From : León, México
Education : Master in International Logistics- Universidad Iberoamericana León, Bachelor in International Business- Monterrey Institute of Technology, León
Experience : Traffic and Transportation Planner Specialist in Volkswagen de México

"This master was one of the most difficult decisions I have made and by far the greatest one. Even though I loved my job, I decided to quit and start a new journey. I have to say it has been very challenging, and applying concepts or mathematical models that I never pictured myself doing is very satisfactory for me. I'm really glad that I came to MISI, because not only I made good friends and grow with them in this program, but also here I targeted a new objective that I'm going to pursue with passion using the tools that I learned."

Sharique Islam

Email : sislam@misi.edu.my
From : Mumbai, India
Education : Bachelor of Technology in Chemical Engineering, Indian Institute of Technology, Kanpur, India
Experience : Process Engineer- Reliance Industries limited, Mumbai, Experience in Production, Project Management and Technology

"Studying in MISI is a life changing experience, a journey that is hard to be described in words. All I could say is this program has been a deep learning experience and has my outlook in many ways. The ten-month journey has been remarkable. I would like to thank all our faculty and staffs who were always there for us. I am carrying with me a bag full of sweet memories and lessons. I wish all my batch mates a very promising future."

Yungchun Kim

Email : ykim@misi.edu.my
From : South Korea
Education : Bachelor's and Master's in Economics at SUNY at Buffalo
Experience : Business Analyst – ISE Network(NY), Corporate Planning Officer – KEB HANA Bank(NY)

"Overall, it was great experience to learn the different cultures and knowledge from various sources. This program exceeds my expectation in various dimensions. I highly appreciated the quality of courses. The methodology and content of courses were all top standard. All lecturers and professors were equipped with full of knowledge and passion. Another big part from this program is the culture. By joining this program, I was able to have a chance to interact a lot of different people from different countries. For my 2018 program, MISI program had students from US, Canada, Italy, India, Malaysia, Korea, Japan, Mexico, El Salvador, Brazil, Turkey and Pakistan. It was truly exceptional opportunity to interact with various students from different culture. I personally enjoyed every moment and learned a lot. I regard the last few months in MISI program as the greatest time to actually learn and broaden my spectrum."

Charles Narbonne Merineau

Email : cmerineau@misi.edu.my
From : Montreal, Canada
Education : Bachelor of Industrial Relations - University of Montreal; International Chinese Language Program (ICLP) - National Taiwan University
Experience : Senior Global HR Specialist – Foxconn (Taiwan)

"The Master of Supply Chain Management at MISI was exactly what my career needed. Not only this program allowed me to become a supply chain professional, but it also provided me various analytical tools that I will certainly use in numerous aspects of my professional life. Numbers and programming do not scare me anymore; in fact, they even triggered interests that I never thought I would have before. I am very thankful to MISI and its faculty for giving me 10 months of amazing personal and professional growth and I wish a great career to all the MISI students."

Zhafri Aiman Onn

Email : zaonn@misi.edu.my
From : Malaysia
Education : Bachelor of Business & Commerce (International Business) / Bachelor of Communication
Experience : Assistant Manager, International Cooperation Secretariat – SME Corporation Malaysia

"I am glad I decided to enrol myself in the Master's of Supply Chain Management program at MISI. The program has equipped me with the knowledge and skills to make an easier career transition to the Supply Chain field. I believe the courses taught at MISI covered the different aspects of the field such as Inventory Management, Transportation, System Technologies, S&OP, Business Process Reengineering, Finance and so many more. These are supported by case studies from great companies written by reputable sources. Plus, I really benefited from the thesis project, which is the core of the program. Lastly, I would like to take this opportunity to thank my family, sponsor company, thesis advisor, lecturers, program director, classmates and other MISI staffs that have guided and helped me throughout this journey of knowledge."

Apurv Shrivastava

Email : ashrivastava@misi.edu.my
From : Pune, India
Education : B Tech in Engineering Design and M Tech in Automotive Engineering
Experience : Engineering Manager – Aerospace Conveyance Products – Eaton Aerospace

"Going through MSCM program at MISI has been one of the most challenging and most rewarding times of my life! I met some brilliant people from around the globe and learnt a lot from each one of them. I am glad to have made some very good friends and forged some lasting relationships, which go beyond our professional lives. The course is designed very nicely and with a world-class faculty, it is perfect for someone like me, who is new to the field of Supply Chain. Industry sponsored thesis offers you a great deal to learn. I think this program has set me up quite well for a long and challenging career in Supply Chain."

Graduates Reflections

Girish Vishnubhotla

Email : gvishnubhotla@misi.edu.my
From : Hyderabad, India
Education : Bachelor of Technology, Industrial Engineering – National Institute of Technology; PMP – Project Management Institute, Inc.
Experience : Program Manager, Commercial Vehicles Business Unit – Tata Motors Ltd.; Project Manager, Manufacturing Engineering – Volvo Eicher Commercial Vehicles Ltd.; Six Sigma Quality Project Intern – Ford India Ltd.; Risk Assessment Volunteer – Tata Sustainability Group

"I can confidently say that I am fortunate to study at MISI. Every dollar and every day spent at MISI symbolize the epitome of valuable investments. The academic rigour is same as that of MIT with a balance of supply chain basics, analytics, technology, and advanced topics. Lectures, case studies, conferences, industry visits, competitions and many more ways of learning had been a daily routine for me at MISI over the past 10 months. The faculty at MISI is always available and easily accessible for a post-class discussion to achieve a good understanding of the course material. I will always miss my batchmates, the out-bound program, SCALE network friends, our humble program director, and the helpful administration team."

Mamoru Yamaura

Email : myamaura@misi.edu.my
From : Tokyo, Japan
Education : Bachelor of Art, International Business and Economics – Sophia University, Tokyo, Japan
Experience : Business process remodelling and global system standardization, ERP/SCM/EDI implementation in North America and Japan, risk management and compliance support for retail industry

"It was a good and priceless decision that I came to Malaysia to take the program of MIT-Malaysia master of science in supply chain management at MISI. The program has expanded my knowledge of SCM and given me insight to new era of supply chain thinking. Well-considered case studies made me aware of multiple points of view quantitatively and qualitatively. The professors and faculty members were committed to student success and lots of opportunities were given during the program. The interaction with classmates from different countries, different cultures and different ages was also big advantage of learning at MISI. It is my great honor and pleasure to be here in Malaysia and learn latest supply chain knowledge with wonderful friends. ARIGATO."

Low Pek Leng (Jane)

Email : jpekleng@misi.edu.my
From : Malaysia
Education : Bachelor in Social Science, University Science of Malaysia
Experience : Solution Design Manager for South East Asia Cluster, CEVA Logistics.

"My initial objective to register with MISI Part-Time Master of Science in Supply Chain Management (PSCM), it is to enhance my knowledge and skills in Supply Chain Logistics and as well to upgrade my studies academically to a higher level. Through my working experience in logistics field, finally, I came to the right place where I've gained much clarity and diverse understanding in Supply Chain connectivity through the courses taught by MISI. Throughout the class courses attendance and discussion, although I called it challenging; it is not an easy path, but I managed to propel myself as a team together with my course mates. Many of my course mates I have already known, each of them came from different background industries and shared with unique experiences. Lastly, I would like to give my gratitude to all those participated faculties involved."
